

Priority ranking for *shemita* – Otzar Ha'aretz 5782

Otzar Ha'aretz, under the halachic supervision of Torah VeHa'aretz Institute, will provide produce during the 5782 *shemita* year according to the following order of priority:

1. *Kedushat shevi'it*, produce with *shemita* sanctity – Otzar beit din
2. Sixth-year produce – storage
3. Detached platforms
4. Produce from the *Arava* – with *heter mechirah lechumra*.
5. Produce from *Olei Mitzrayim* – with *heter mechirah lechumra*.

All of the above are grown by Jewish farmers only!

According to our plans, we will have sufficient produce for the entire *shemita* year from these growing sources.

In the case that there is a problem and there is not enough produce of a certain kind, customers (vendors, store owners, institutions) will receive the option to choose an alternative source of the missing produce – import or *heiter mechira*. Otzar Ha'aretz will not deliver non-Jewish produce from Israel.
