

# Kila'im

Yehuda has lots of vegetables growing in his vegetable patch, and he learned that he has to separate the vegetables. Help him build a fence between the vegetables that aren't far enough apart.

\* **Kila'im**: It is forbidden to plant different types of seeds (vegetables, grains, legumes) together or too close to one another. Different types of vegetables need to be planted at least 13 cm apart, or a fence should be built between them.
